New Release: Søren Kierkegaard – In Vino Veritas

Stauer Publishing presents a new, illustrated edition of *In Wine, There Is Truth* by Søren Kierkegaard, edited and commented on by philosopher, mag.art. Jens Staubrand.

In Vino Veritas is part of Søren Kierkegaard's *Stages on Life's Way* (1845).

The work is inspired by Plato's *Symposium* and takes the form of a conversation between five individuals who, under the influence of wine, explore the nature of love. Through their speeches, different existential perspectives on love, freedom, and choice are presented, making this one of Søren Kierkegaard's most fascinating and vivid writings.

Jens Staubrand, who has edited and commented on the book, is known for his editions of selected works from Søren Kierkegaard's authorship. His commentaries help readers gain a deeper understanding of the text's meaning and context. Additionally, the selected illustrations add a visual dimension to the work, further enriching the experience of Søren Kierkegaard's text.

This new edition is ideal for both philosophy enthusiasts and new readers who wish to delve into Søren Kierkegaard's thoughts on love and existence.
